Cost: \$179 **Ideal For:** Anyone looking to enhance their beauty.

NAD+

NAD and NAD+ occur naturally in your body. They play a major role in the chemical process of generating energy. NAD+ is probably the most important co-factor for improving mitochondrial function.

Mitochondria are intracellular organelles (*a.k.a. "energy powerhouses"*) where macronutrients (*proteins, carbohydrates, and fats from food*) are converted to energy-rich ATP molecules for the cell. NAD helps the liver break down essential fats to provide energy for the body. It also helps create ATP, a primary energy source for cells. Boosting NAD+ may help manage various diseases, including diabetes and cancer.

Cost: NAD+ 250mg Anti-Aging Treatment (*120min*) - \$399

Cost: NAD+ 500mg Neurogenerative Treatment (*180min*) - \$499

Ideal For: Anyone looking to reverse the clock on aging, not just for looks but for your entire body!
